List Subcontractors and contact information:

InStream Fisheries Research Inc. & Squamish Streamkeepers

Box 420, Brackendale, BC V0N-1H0, 1562 Eagle Run Drive, Brackendale, BC

Project Information

Amount Spent from the PSF: \$2910.58

Total Project Value: \$7780.00

Is this project a result of a previous PSF Project?

YES

NO

Project Start Date: April 1, 2007

Project End Date: June 15, 2007

Please attach proposal, maps and other relevant document

Project Title: Meighan Creek coho outmigration monitoring

Project Activity Type:

Habitat Assessment
Habitat Rehabilitation

Stock Assessment
Stock Rehabilitation

Education and Awareness
Stewardship and Community Planning

Target Species: Coho

Project Relevance and Significance

Provide a brief overview of the project: (Describe the relevance and significance to the PSF Recovery Plan. How does this project address the sustainability or rebuilding of the target species, what limiting factors does this project address.)

What species, life stage does this project target: smolts

Describe the specific objectives expected to be delivered by the end of this project:

Objective # 1 Monitoring coho populations specifically in Meighan as development increases on this urban stream – Achieved

Objective # 2 Expand in future to a full indicator stream for coho in the Squamish watershed – Achieved

Objective #3 Provide volunteer training and experience from the installation of a counting fence to the actual technique required to daily count the smolt outmigration – Achieved

Will this project require long-term maintenance?

YES NO

If yes, what are the anticipated annual costs? For juvenile monitoring \$2500.00

Who will fund it? PSF and/or Compensation money form developers

Certification
